

# KALAELOA CONSTRUCTION UPDATE

October 25, 2021

Hunt is currently making improvements associated with the new Veterans Affairs Advanced Leeward Outpatient Healthcare Access (ALOHA) Clinic, as well as the upcoming Gentry Homes residential development. To support these construction efforts, Hunt is using several nearby parcels to provide a base for project administration, as well as to temporarily store equipment and excess soil.

**Parcel 1:** Construction crews are creating the infrastructure for the future home of the VA ALOHA multi-specialty medical clinic, the Gentry Homes residential project, and future commercial and retail space.

**Parcel 2:** Temporary construction trailers for contractors are located here to provide direct project administration.

**Parcel 12:** Temporary stockpiling of excess non-contaminated soil from the grading operation and roadwork for Parcel 1. The ground was not disturbed during this process. Hunt received all proper approvals from the Hawai'i Department of Health and Navy prior to starting any work.
